Moshon Data Your partner for vehicle targets

Moshon Data support your event and help you market your ADAS technology by taking a blank empty space, turning it into a Moshon village to fully demonstrate ADAS functions.

We can also market your events with printed logos, banners, inflatables and a full marketing service.

We can demonstrate:

- Adaptive Cruise Control
- AEB Moving (CCRM)
- Forward Collision Warning
- AEB Static (CCRS)

- Blind Spot Information System
- Night Simulation
- VRU Detection
- Reverse AEB

- Park Assist Solutions
- ADAS Village
- Road Sign Recognition

Adaptive Cruise Control & AEB Moving (CCRM)

- We can use our Moshon Flex to demonstrate these following features around a perimeter test track

- Adaptive Cruise Control with Distance Alert and Queue Assist

- Car to Car Rear auto emergency braking with a moving target

- Car to Car Rear preselected distance to vehicle ahead

- Stop and Go

Moshon Data Your partner for vehicle targets

Forward Collision Warning

Active safety feature that warns drivers in the event of an imminent frontal collision.

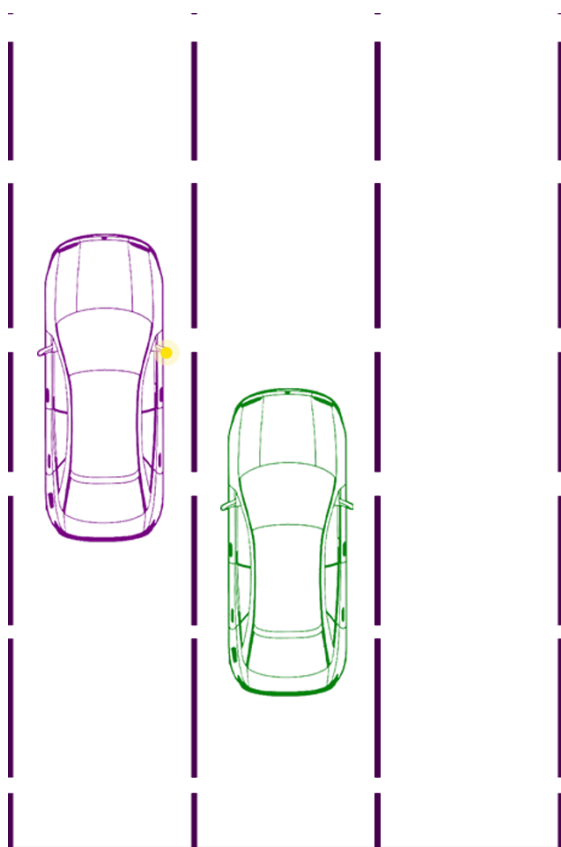

To demonstrate Forward Collision warning we can use:

- MD-S
- MD-SF
- MD-VT
- MD-VT L
- 3D Targets

Blind Spot Information Systems

We can use our Moshon Flex and Moshon Flex 3D to demonstrate Blind Spot Information Systems.
